ARE YOU FACING THESE CHALLENGES ?

TOO MUCH THEORY
NO PROJECTS
SKILL GAP
NO GUIDANCE

- Still searching for your first job after graduation?
- Worried about the Gap? And don't know how to start your career?
- Stuck in a low-salary job? and seeking for better growth opportunities?
- Fear of switching to an IT career from a non-IT background
- Not getting interview calls despite applying to 100+ jobs?

How Inventateq Helps You

Waiting Ends. Careers Begin.
Build job-ready skills. Start applying with confidence.

Turns Gaps into Comebacks
Close skill gaps. Rebuild your career

Break Free. Move Forward
Learn in-demand skills. Take your next career step.

Doubt Out. Confidence In.
Practice real skills. Walk into interviews prepared.

Turn Rejections into Chances
Turn every setback into skills employers value.

Be Smart Learn AI
Learn AI tools. Work smarter. Stay updated

ABOUT INVENTATEQ

Inventateq is a leading IT training and placement company committed to transforming learners into Industry ready professionals

Our Mission
To deliver high-quality education, practical slots and career opportunities that empower individuals to achieve their dreams

Our Vision
To be a globally recognised training company known for innovation, quality and impactful learner outcomes.

Why Thousands Choose Inventateq?

15+ Years of Excellence
500+ Hiring Partners
25,000+ Students Trained
15,000+ Students Placed

We Collaborate With

Deloitte. · Capgemini · amazon · HCL · Tech Mahindra

WHY LEARN AUGMENTED REALITY DEVELOPMENT ?

Enterprises worldwide are actively hiring certified Augmented Reality Development professionals to drive critical business operations, digital transformation, and modernization.

CAREER SCOPE OF AUGMENTED REALITY DEVELOPMENT

- **Exponential Industry Demand**
  Rapid enterprise adoption across global IT firms, MNCs, and technology centers
- **Premium Salary Compensation**
  Command competitive compensation packages with rapid growth milestones
- **Cross-Industry Opportunities**
  Versatile skill set applicable across technology, consulting, finance, and core sectors
- **Future-Proof Career Growth**
  Long-term job security supported by ongoing digital modernization and tooling investment
- **Global Certification Pathways**
  Direct alignment with recognized industry certifications to validate your competence
- **Worldwide Job Prospects**
  Open doors to roles in major Indian tech hubs as well as international remote positions

INDUSTRY-RECOGNIZED CERTIFICATION

INVENTATEQ
CERTIFICATE
OF ACHIEVEMENT
This Certificate is proudly present to
has successfully completed the Python Course and demonstrated outstanding performance, achieving an A Grade.
This certificate recognizes the successful completion of the program requirements during the period from August 01, 2026 - August 18, 2026

CAREER PROGRESSION

Job responsibilities, technical competency and portfolio evidence for each role.

ROLE PATHWAY	TYPICAL RESPONSIBILITIES	PORTFOLIO PROOF
AR Development Associate	Manage core Augmented Reality tasks, configure tooling, and support delivery.	Practical Augmented Reality setup files, exercise scripts, and documentation.
AR Development Specialist	Build practical Data, Communication, workflows, implement features, and resolve issues.	Functional Data, Communication, modules, workflow configs, and practical deliverables.
Senior AR Development Lead	Lead AR Development technical delivery, design solutions, and set standards.	Complete AR Development capstone artifacts, technical blueprints, and reports.

SKILLS ROADMAP

Progress from core foundations to production-ready enterprise workflows.

MILESTONE	PRACTICAL OUTPUT	REVIEW EVIDENCE
Milestone 1 (Foundations)	Master fundamental Augmented Reality concepts, environment setup, and tools.	Configured Augmented Reality workspace and verified practice exercises.
Milestone 2 (Implementation)	Develop practical Data, Communication, workflows and functional domain modules.	Working Data, Communication, project modules and validated practice outputs.
Milestone 3 (Advanced Workflows)	Implement advanced Quality features, integrations, and optimizations.	Validated Quality configurations and technical review outputs.
Milestone 4 (Production Capstone)	Deliver an end-to-end AR Development capstone project and technical review.	Complete AR Development project portfolio artifact and defense.

DETAILED MODULE PLAN

9 in-depth modules • 3 Months Duration • Hands-on practical training

1 Module 1: Augmented Reality

- Development Foundations
- Core concepts and business use cases in augmented reality development
- Platform or technology overview and workflow structure
- Key terminology and environment awareness
- Building practical conceptual clarity before implementation

GUIDED LAB
Complete a guided practical exercise on Development Foundations and verify your results.

INTERVIEW & ASSESSMENT
Explain the core purpose of Development Foundations and how you use it in real job roles.

2 Module 2: Core Setup and

- Environment
- Tools, interfaces, and configuration basics ● Project or environment organization
- Working structure used in real projects ● Best practices for clean setup and navigation

GUIDED LAB
Build a simple decision script that checks user input and repeats actions automatically.

INTERVIEW & ASSESSMENT
Explain when to use loops versus if-else conditions in simple words.

3 Module 5: Data, Communication, or Integration Awareness

- How data, integrations, or interactions are managed
- Working with connected systems or inputs
- Understanding dependencies and process flow
- Improving practical reliability in
- implementations

GUIDED LAB
Complete a guided practical exercise on How data and verify your results.

INTERVIEW & ASSESSMENT
Explain the core purpose of How data and how you use it in real job roles.

4 Module 4: Intermediate Workflows

- Reusable components, logic, and structured workflow design
- How teams apply this in practical
- environments
- Maintaining clarity, consistency, and quality ● Connecting functional work to business needs

GUIDED LAB
Complete a guided practical exercise on Reusable components and verify your results.

INTERVIEW & ASSESSMENT
Explain the core purpose of Reusable components and how you use it in real job roles.

5 Module 6: Quality and Optimization

- Validation, troubleshooting, optimization, and performance basics
- Reducing errors and improving maintainability ● Structured review and issue resolution habits
- Preparing work for more realistic project standards

GUIDED LAB
Build a simple decision script that checks user input and repeats actions automatically.

INTERVIEW & ASSESSMENT
Explain when to use loops versus if-else conditions in simple words.

6 Module 7: Security, Governance, or Control

- Managing access, governance, or structured control where relevant
- Understanding safe and disciplined
- operational practices
- Supporting scalable work in enterprise-like environments
- Thinking beyond only task completion

GUIDED LAB
Complete a guided practical exercise on Managing access and verify your results.

INTERVIEW & ASSESSMENT
Explain the core purpose of Managing access and how you use it in real job roles.

7 Module 8: Monitoring and

- Troubleshooting
- Operational visibility, diagnostics, and issue investigation
- How teams respond to failures or unexpected behavior
- Reading signals, logs, or outputs effectively
- Building confidence in structured
- troubleshooting

GUIDED LAB
Complete a guided practical exercise on Troubleshooting and verify your results.

INTERVIEW & ASSESSMENT
Explain the core purpose of Troubleshooting and how you use it in real job roles.

8 Module 9: Industry Use Cases and Career Context

- How the technology is used across real business scenarios
- Interview-oriented understanding of practical workflows
- Positioning the skill within broader role expectations
- Connecting learning to jobs and project delivery

GUIDED LAB
Complete a guided practical exercise on How the technology is used and verify your results.

INTERVIEW & ASSESSMENT
Explain the core purpose of How the technology is used and how you use it in real job roles.

9 Module 10: Real Project Workflow

- Building a practical end-to-end scenario or case
- Applying setup, execution, and review concepts together
- Preparing a demonstrable project for
- interviews or portfolio use
- Aligning outcomes with entry-level industry roles
- Career Opportunities
- AR Developer Trainee
- Immersive Application Developer

GUIDED LAB
Complete an end-to-end practical project bringing together everything you built in this course.

INTERVIEW & ASSESSMENT
Present your completed project and explain your key design decisions with confidence.

INVENTATEQ
LEARN SKILLS • GET PLACED

TWO PORTFOLIO PROJECTS

Practical industry scenarios, tools applied, and demonstrable project outcomes.

Project 1: Career Opportunities

What it is: Set up the core Augmented Reality environment and configure essential business settings.
What you do: Initialize base configurations, create clean templates, and verify workflow controls.
Tools used: AR Development, Augmented Reality, Development
Project outcome: Working project foundation configured and tested according to best practices.

Project 2: AR Developer Trainee

What it is: Build practical Setup modules to handle everyday business operations.
What you do: Create core functional components, validate input data, and prevent common errors.
Tools used: AR Development, Setup, Environment
Project outcome: Functional business module ready to run and demo with zero manual errors.

Project 3: Immersive Application Developer

What it is: Connect Intermediate Workflows with Reusable components logic to automate data and team workflows.
What you do: Set up automated pipelines, link required services, and run end-to-end tests.
Tools used: AR Development, Intermediate Workflows, Reusable components logic
Project outcome: Live automated workflow pipeline documented with clear usage guides.

Project 4: Security Governance Contr System

What it is: Optimize Security Governance Control workflows for security, speed, and reliability.
What you do: Audit performance bottlenecks, apply security rules, and optimize execution speed.
Tools used: AR Development, Security Governance Control, Managing access governance
Project outcome: Production-grade technical deliverable ready to add to your personal portfolio.

Project 5: AR Development End-to-End Capstone

What it is: Build a complete, production-ready AR Development project bringing all skills together.
What you do: Design, code, test, and document a full project workflow from scratch to launch.
Tools used: AR Development, Industry Use Cases, technology is used
Project outcome: Verified capstone project ready to showcase on your resume and interview calls.

ASSESSMENT FRAMEWORK

Module tests, practical evaluations, capstone and completion criteria.

COMPONENT	ASSESSMENT FOCUS	PASS EVIDENCE
Module Knowledge Quizzes	Core Augmented Reality principles, industry terminology, and workflow concepts	Consistent passing score across syllabus unit evaluation tests
Lab Submissions & Practice Reviews	Hands-on Data Communication implementation, configuration, and practical exercises	Working lab deliverables satisfying practical evaluation rubrics
Hands-On Mini Projects	Independent problem-solving using intermediate Quality techniques	Functional project artifacts addressing realistic domain scenarios
Final Production Capstone	End-to-end AR Development implementation, quality review, and delivery	Complete capstone submission with technical walkthrough review
Technical Mock Viva	Technical reasoning, troubleshooting approaches, and communication	Successfully defending project decisions in structured mock panels

LEARN SKILLS • GET PLACED

RESUME, GITHUB & LINKEDIN

Evidence-based resume writing and professional project presentation.

- Modular GitHub repository per project with setup steps, dependencies, and clean commits.
- Detailed Augmented Reality diagrams, component specifications, and end-to-end workflows.
- Visual project sheets, live demonstration walkthroughs, and verified functional outputs.
- Project documentation covering Data Communication setup, configuration steps, and test notes.
- Direct resume bullet points highlighting hands-on AR Development tools and technical outcomes.
- Structured practice for technical interview pitches, walkthroughs, and viva defense.
