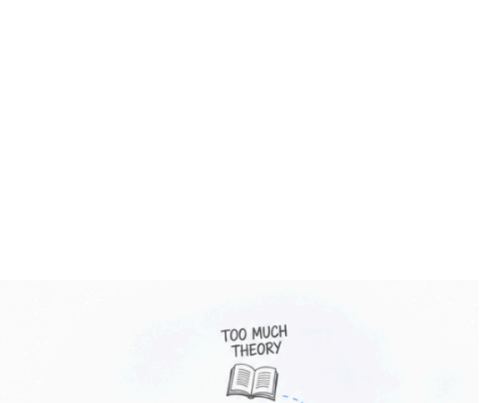
ARE YOU FACING THESE CHALLENGES ?

- Still searching for your first job after graduation?
- Worried about the Gap? And don't know how to start your career?
- Stuck in a low-salary job? and seeking for better growth opportunities?
- Fear of switching to an IT career from a non-IT background
- Not getting interview calls despite applying to 100+ jobs?



How Inventateq Helps You

Waiting Ends. Careers Begin.
Build job-ready skills. Start applying with confidence.

Turns Gaps into Comebacks
Close skill gaps. Rebuild your career

Break Free. Move Forward
Learn in-demand skills. Take your next career step.

Doubt Out. Confidence In.
Practice real skills. Walk into interviews prepared.

Turn Rejections into Chances
Turn every setback into skills employers value.

Be Smart Learn AI
Learn AI tools. Work smarter. Stay updated

ABOUT INVENTATEQ

Inventateq is a leading IT training and placement company committed to transforming learners into Industry ready professionals

Our Mission
To deliver high-quality education, practical slots and career opportunities that empower individuals to achieve their dreams

Our Vision
To be a globally recognised training company known for innovation, quality and impactful learner outcomes.

Why Thousands Choose Inventateq?

15+ Years of Excellence
500+ Hiring Partners
25,000+ Students Trained
15,000+ Students Placed

We Collaborate With

Deloitte.

WHY LEARN AUTOCAD ?

Enterprises worldwide are actively hiring certified Autocad professionals to drive critical business operations, digital transformation, and modernization.

CAREER SCOPE OF AUTOCAD

Exponential Industry Demand
Rapid enterprise adoption across global IT firms, MNCs, and technology centers

Premium Salary Compensation
Command competitive compensation packages with rapid growth milestones

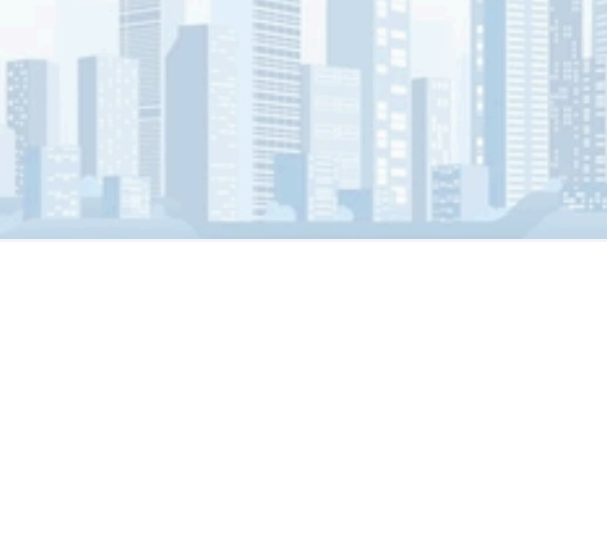
Cross-Industry Opportunities
Versatile skill set applicable across technology, consulting, finance, and core sectors

Future-Proof Career Growth
Long-term job security supported by ongoing digital modernization and tooling investment

Global Certification Pathways
Direct alignment with recognized industry certifications to validate your competence

Worldwide Job Prospects
Open doors to roles in major Indian tech hubs as well as international remote positions

INDUSTRY-RECOGNIZED CERTIFICATION



INVENTATEQ
CERTIFICATE
OF ACHIEVEMENT
This Certificate is proudly present to
Gaurang Ahirrao
has successfully completed the Python Course and demonstrated outstanding performance, achieving an A Grade.
This certificate recognizes the successful completion of the program requirements during the period from

CAREER PROGRESSION

Job responsibilities, technical competency and portfolio evidence for each role.

ROLE PATHWAY	TYPICAL RESPONSIBILITIES	PORTFOLIO PROOF
Autocad Drafter	Manage core AutoCAD Interface tasks, configure tooling, and support delivery.	Practical AutoCAD Interface setup files, exercise scripts, and documentation.
Autocad Design Engineer	Build practical Annotation workflows, implement features, and resolve issues.	Functional Annotation modules, workflow configs, and practical deliverables.
Senior Autocad Engineer	Lead Autocad technical delivery, design solutions, and set standards.	Complete Autocad capstone artifacts, technical blueprints, and reports.

SKILLS ROADMAP

Progress from core foundations to production-ready enterprise workflows.

MILESTONE	PRACTICAL OUTPUT	REVIEW EVIDENCE
Milestone 1 (Foundations)	Master fundamental AutoCAD Interface concepts, environment setup, and tools.	Configured AutoCAD Interface workspace and verified practice exercises.
Milestone 2 (Implementation)	Develop practical Annotation workflows and functional domain modules.	Working Annotation project modules and validated practice outputs.
Milestone 3 (Advanced Workflows)	Implement advanced Layouts, Plotting, features, integrations, and optimizations.	Validated Layouts, Plotting, configurations and technical review outputs.
Milestone 4 (Production Capstone)	Deliver an end-to-end Autocad capstone project and technical review.	Complete Autocad project portfolio artifact and defense.

LEARN SKILLS • GET PLACED

DETAILED MODULE PLAN

10 in-depth modules • 3 Months Duration • Hands-on practical training

1 Module 1: AutoCAD Interface and Drawing Basics

- Workspace navigation, coordinate systems, units, limits, and object snaps
- Model space, layout space, viewports, and status bar controls
- Selection methods, modify tools, and clean drafting habits
- Drawing setup standards for accuracy and consistency

GUIDED LAB
Log in to the system, practice basic navigation, and complete your first Workspace navigation exercise.

INTERVIEW & ASSESSMENT
Explain what Workspace navigation is used for and why companies choose it in simple words.

2 Module 2: Precision 2D Drafting

- Lines, polylines, circles, arcs, rectangles, and hatch workflows
- Offset, trim, extend, fillet, chamfer, and array operations
- Using grips, properties, and quick modification tools efficiently
- Layer discipline for organized technical drawings

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Lines.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Lines and how you review client feedback.

3 Module 3: Annotation and

- Documentation
- Text, dimensions, leaders, tables, and multileader standards
- Annotation scales and readable sheet outputs
- Dimension style management and drafting best practices
- Producing clear issue-ready technical documentation

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Documentation.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Documentation and how you review client feedback.

4 Module 5: Layers, Standards, and File Control

- Layer properties, lineweights, linetypes, and plotting logic
- Template usage and office standards
- Purging, auditing, recovering, and
- version-aware file handling
- Drawing review markup and issue control basics

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Layer properties.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Layer properties and how you review client feedback.

5 Module 4: Blocks, Attributes, and Reusable Content

- Creating and editing blocks for repeated components
- Attribute definitions for tags, schedules, and references
- External references and content reuse across projects
- Library management for productivity and standardization

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Creating and editing blocks for.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Creating and editing blocks for and how you review client feedback.

6 Module 6: Layouts, Plotting, and Sheet Output

- Page setup, title blocks, scale management, and viewports
- Plot styles, PDF generation, and print-quality checks
- Multi-sheet output organization and drawing sets
- Deliverable preparation for clients and internal teams

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Page setup.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Page setup and how you review client feedback.

7 Module 7: Introductory 3D and

- Visualization Awareness
- 3D navigation, UCS basics, and simple solid modeling awareness
- Practical understanding of when AutoCAD 3D is useful
- Basic visual styles and view control for presentation
- Transition points from 2D drafting to broader CAD workflows

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Visualization Awareness.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Visualization Awareness and how you review client feedback.

8 Module 8: Collaboration and

- Reference Workflows
- Using xrefs, underlays, and shared reference files
- Drawing comparison, revision handling, and markup collaboration
- Coordination awareness with consultants and project teams
- Data linking and maintaining clean project file structures

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Reference Workflows.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Reference Workflows and how you review client feedback.

9 Module 9: Domain-Oriented Drafting Practice

- Architectural plans, sections, and interior detailing patterns
- Mechanical drafting basics and component documentation
- Civil or site drawing awareness depending on project context
- Producing drawings that meet common interview expectations

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Architectural plans.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Architectural plans and how you review client feedback.

10 Module 10: Real Project Workflow

- Drafting a complete project sheet set from setup to final issue
- Applying layers, blocks, annotations, and plotting standards together
- Checking drawing clarity, scale, and
- documentation consistency
- Portfolio-ready final output for jobs or freelance work
- Certifications (2026 Updated)
- Autodesk Certified Professional - AutoCAD for Design and Drafting
- Validated by: Autodesk

GUIDED LAB
Complete an end-to-end practical project bringing together everything you built in this course.

INTERVIEW & ASSESSMENT
Present your completed project and explain your key design decisions with confidence.

REAL-WORLD PORTFOLIO PROJECTS

Practical industry scenarios, tools applied, and demonstrable project outcomes.

Project 1: AutoCAD Interface Drawing Setup & Architecture

What it is: Set up the core AutoCAD Interface Drawing environment and configure essential business settings.
What you do: Initialize base configurations, create clean templates, and verify workflow controls.
Tools used: Autocad, AutoCAD Interface Drawing, Workspace navigation coordinate
Project outcome: Working project foundation configured and tested according to best practices.

Project 2: Annotation Feature Implementation

What it is: Build practical Annotation modules to handle everyday business operations.
What you do: Create core functional components, validate input data, and prevent common errors.
Tools used: Autocad, Annotation, Documentation
Project outcome: Functional business module ready to run and demo with zero manual errors.

Project 3: Blocks Attributes Reusable Data & Logic Pipeline

What it is: Connect Blocks Attributes Reusable with Creating editing blocks to automate data and team workflows.
What you do: Set up automated pipelines, link required services, and run end-to-end tests.
Tools used: Autocad, Blocks Attributes Reusable, Creating editing blocks
Project outcome: Live automated workflow pipeline documented with clear usage guides.

Project 4: Introductory 3D Integration & Automation

What it is: Optimize Introductory 3D workflows for security, speed, and reliability.
What you do: Audit performance bottlenecks, apply security rules, and optimize execution speed.
Tools used: Autocad, Introductory 3D, Visualization
Project outcome: Production-grade technical deliverable ready to add to your personal portfolio.

Project 5: Autocad End-to-End Capstone

What it is: Build a complete, production-ready Autocad project bringing all skills together.
What you do: Design, code, test, and document a full project workflow from scratch to launch.
Tools used: Autocad, Domain Oriented Drafting, Architectural plans sections
Project outcome: Verified capstone project ready to showcase on your resume and interview calls.

ASSESSMENT FRAMEWORK

Module tests, practical evaluations, capstone and completion criteria.

COMPONENT	ASSESSMENT FOCUS	PASS EVIDENCE
Module Knowledge Quizzes	Core AutoCAD Interface principles, industry terminology, and workflow concepts	Consistent passing score across syllabus unit evaluation tests
Lab Submissions & Practice Reviews	Hands-on Annotation implementation, configuration, and practical exercises	Working lab deliverables satisfying practical evaluation rubrics
Hands-On Mini Projects	Independent problem-solving using intermediate Layouts Plotting techniques	Functional project artifacts addressing realistic domain scenarios
Final Production Capstone	End-to-end Autocad implementation, quality review, and delivery	Complete capstone submission with technical walkthrough review
Technical Mock Viva	Technical reasoning, troubleshooting approaches, and communication	Successfully defending project decisions in structured mock panels

RESUME, GITHUB & LINKEDIN

Evidence-based resume writing and professional project presentation.

- Organized Autocad portfolio of 2D drafting sheets, 3D models, and plot sets.
- Detailed AutoCAD Interface diagrams, component specifications, and end-to-end workflows.
- Visual project sheets, live demonstration walkthroughs, and verified functional outputs.
- Project documentation covering Annotation setup, configuration steps, and test notes.
- Direct resume bullet points highlighting hands-on Autocad tools and technical outcomes.
- Structured practice for technical interview pitches, walkthroughs, and viva defense.
