MASTER AUTODESK REVIT
COURSE With Placement

Build In-Demand Professional Expertise with Real-Time Hands-on Autodesk Revit Training

BEST RATED ON TOP PLATFORMS

Google Reviews ★★★★★ | Trustpilot ★★★★★ | Sulekha ★★★★★

COURSE BENEFITS

- ✓ 100% Practical & Real-Time Hands-on Labs
- ✓ End-to-End Capstone Implementation Projects
- ✓ Industry Recognized Certification Preparation
- ✓ 100% Dedicated Placement Support in MNC's & Mock Interviews

15+ YEARS OF EXCELLENCE | **500+** HIRING PARTNERS | **25K** STUDENTS TRAINED | **15K** STUDENTS PLACED

ARE YOU FACING THESE CHALLENGES ?

TOO MUCH THEORY
NO PROJECTS
SKILL GAP
NO GUIDANCE
?

- Still searching for your first job after graduation?
- Worried about the Gap? And don't know how to start your career?
- Stuck in a low-salary job? and seeking for better growth opportunities?
- Fear of switching to an IT career from a non-IT background
- Not getting interview calls despite applying to 100+ jobs?

How Inventateq Helps You

Waiting Ends. Careers Begin.
Build job-ready skills. Start applying with confidence.

Turns Gaps into Comebacks
Close skill gaps. Rebuild your career

Break Free. Move Forward
Learn in-demand skills. Take your next career step.

Doubt Out. Confidence In.
Practice real skills. Walk into interviews prepared.

Turn Rejections into Chances
Turn every setback into skills employers value.

Be Smart Learn AI
Learn AI tools. Work smarter. Stay updated

ABOUT INVENTATEQ

Inventateq is a leading IT training and placement company committed to transforming learners into Industry ready professionals

Our Mission
To deliver high-quality education, practical slots and career opportunities that empower individuals to achieve their dreams

Our Vision
To be a globally recognised training company known for innovation, quality and impactful learner outcomes.

Why Thousands Choose Inventateq?

15+ Years of Excellence | **500+** Hiring Partners | **25,000+** Students Trained | **15,000+** Students Placed

We Collaborate With

Deloitte. | Capgemini | amazon | HCL | Tech Mahindra

WHY LEARN AUTODESK REVIT ?

Enterprises worldwide are actively hiring certified Autodesk Revit professionals to drive critical business operations, digital transformation, and modernization.

CAREER SCOPE OF AUTODESK REVIT

Exponential Industry Demand
Rapid enterprise adoption across global IT firms, MNCs, and technology centers

Premium Salary Compensation
Command competitive compensation packages with rapid growth milestones

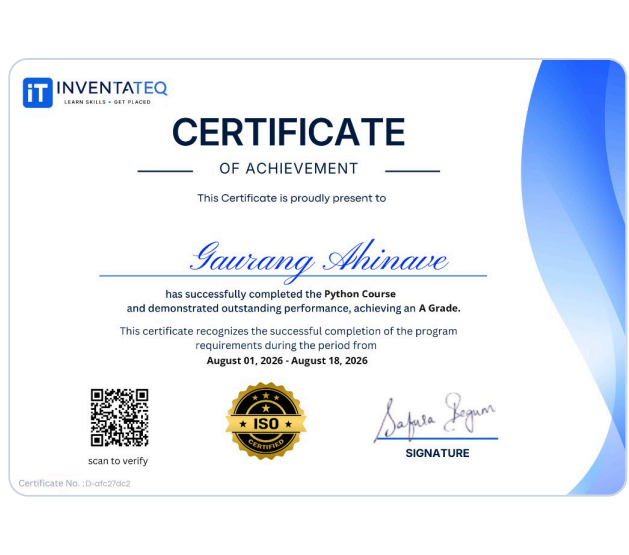
Cross-Industry Opportunities
Versatile skill set applicable across technology, consulting, finance, and core sectors

Future-Proof Career Growth
Long-term job security supported by ongoing digital modernization and tooling investment

Global Certification Pathways
Direct alignment with recognized industry certifications to validate your competence

Worldwide Job Prospects
Open doors to roles in major Indian tech hubs as well as international remote positions

INDUSTRY-RECOGNIZED CERTIFICATION



INVENTATEQ
CERTIFICATE
OF ACHIEVEMENT
This Certificate is proudly present to
Gaurang Ahinave
has successfully completed the Python Course and demonstrated outstanding performance, achieving an A Grade.
This certificate recognizes the successful completion of the program requirements during the period from August 01, 2026 - August 18, 2026

CAREER PROGRESSION

Job responsibilities, technical competency and portfolio evidence for each role.

ROLE PATHWAY	TYPICAL RESPONSIBILITIES	PORTFOLIO PROOF
Autodesk Revit Drafter	Manage core BIM tasks, configure tooling, and support delivery.	Practical BIM setup files, exercise scripts, and documentation.
Autodesk Revit Design Engineer	Build practical Views, Annotation, workflows, implement features, and resolve issues.	Functional Views, Annotation, modules, workflow configs, and practical deliverables.
Senior Autodesk Revit Engineer	Lead Autodesk Revit technical delivery, design solutions, and set standards.	Complete Autodesk Revit capstone artifacts, technical blueprints, and reports.

SKILLS ROADMAP

Progress from core foundations to production-ready enterprise workflows.

MILESTONE	PRACTICAL OUTPUT	REVIEW EVIDENCE
Milestone 1 (Foundations)	Master fundamental BIM concepts, environment setup, and tools.	Configured BIM workspace and verified practice exercises.
Milestone 2 (Implementation)	Develop practical Views, Annotation, workflows and functional domain modules.	Working Views, Annotation, project modules and validated practice outputs.
Milestone 3 (Advanced Workflows)	Implement advanced Schedules, Quantities, features, integrations, and optimizations.	Validated Schedules, Quantities, configurations and technical review evidence.
Milestone 4 (Production Capstone)	Deliver an end-to-end Autodesk Revit capstone project and technical review.	Complete Autodesk Revit project portfolio artifact and defense.

DETAILED MODULE PLAN

10 in-depth modules • 3 Months Duration • Hands-on practical training

1 Module 1: BIM and Revit Foundations

- BIM concepts, Revit interface, navigation, and project templates
- Project units, levels, grids, and view organization ● Category, family, type, and instance concepts ● Model-based coordination compared with traditional CAD drafting

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on BIM concepts.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for BIM concepts and how you review client feedback.

2 Module 3: Structural and Building

- Components
- Columns, beams, foundations, slabs, and structural layout basics
- Reference planes, work planes, and hosted elements
- Coordination between architectural and structural objects
- Visibility settings for discipline-specific views

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Components.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Components and how you review client feedback.

3 Module 5: Views, Annotation, and

- Documentation
- Plans, sections, elevations, callouts, and detail views
- Dimensions, text, keynotes, tags, and detail components
- View templates and graphic consistency standards ● Sheet setup and drawing-set preparation

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Documentation.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Documentation and how you review client feedback.

4 Module 2: Architectural Modeling

- Creating walls, doors, windows, floors, roofs, and ceilings
- Room and area workflows for basic planning tasks ● Model accuracy, constraints, and alignment control ● Site elements and simple context development

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Creating walls.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Creating walls and how you review client feedback.

5 Module 4: Families and Parametric Components

- Loading, modifying, and organizing library content ● Parametric family concepts and reusable component logic
- Tagging, scheduling, and controlling family data ● Best practices for clean family usage in production files

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Loading.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Loading and how you review client feedback.

6 Module 6: Schedules, Quantities, and Data Management

- Creating schedules, quantity takeoffs, and filtered reports
- Using parameters and project information effectively
- Data consistency between model and
- documentation outputs
- Export-ready documentation practices

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Creating schedules.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Creating schedules and how you review client feedback.

7 Module 7: Visualization and Presentation

- Materials, shadows, lighting, and realistic view settings
- Cameras, walkthroughs, and presentation outputs ● Rendering basics and visual communication quality checks
- Preparing client-friendly presentation views

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Materials.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Materials and how you review client feedback.

8 Module 9: Discipline Extensions and Project Coordination

- Overview of architectural, structural, and MEP use cases in Revit
- Interpreting consultant models and federated coordination
- Export awareness for IFC, DWG, and coordination deliverables
- Project standards and QA checks before issue
- Certifications (2026 Updated)

GUIDED LAB
Complete an end-to-end practical project bringing together everything you built in this course.

INTERVIEW & ASSESSMENT
Present your completed project and explain your key design decisions with confidence.

9 Module 8: Collaboration and Worksharing

- Central model concepts, local files, and team workflows
- Linked models, coordination review, and clash awareness
- Revision control, model hygiene, and file management
- Interdisciplinary collaboration basics in BIM projects

GUIDED LAB
Create a practical 3D model or architectural drawing focusing on Central model concepts.

INTERVIEW & ASSESSMENT
Explain your step-by-step design workflow for Central model concepts and how you review client feedback.

10 Module 10: Real Project Workflow

- Building-model setup from project start to documentation
- Discipline-specific views, schedules, and sheets ● Coordination fixes and documentation refinement ● Final project package for portfolio or interview presentation
- Autodesk Certified Professional - Revit for Architectural Design
- Validated by: Autodesk
- Fees: USD 200 standard retail price
- Exam duration: 120 minutes
- Mode: Online proctored exam
- Validity: 3 years

GUIDED LAB
Complete an end-to-end practical project bringing together everything you built in this course.

INTERVIEW & ASSESSMENT
Present your completed project and explain your key design decisions with confidence.

REAL-WORLD PORTFOLIO PROJECTS

Practical industry scenarios, tools applied, and demonstrable project outcomes.

Project 1: BIM Revit Setup & Architecture

What it is: Set up the core BIM Revit environment and configure essential business settings.
What you do: Initialize base configurations, create clean templates, and verify workflow controls.
Tools used: Autodesk Revit, BIM Revit, BIM Revit interface
Project outcome: Working project foundation configured and tested according to best practices.

Project 2: Views Annotation Feature Implementation

What it is: Build practical Views Annotation modules to handle everyday business operations.
What you do: Create core functional components, validate input data, and prevent common errors.
Tools used: Autodesk Revit, Views Annotation, Documentation
Project outcome: Functional business module ready to run and demo with zero manual errors.

Project 3: Families Parametric Compo System

What it is: Connect Families Parametric Components with Loading modifying organizing to automate data and team workfl
What you do: Set up automated pipelines, link required services, and run end-to-end tests.
Tools used: Autodesk Revit, Families Parametric Components
Project outcome: Live automated workflow pipeline documented with clear usage guides.

Project 4: Visualization Presentatio System

What it is: Optimize Visualization Presentation workflows for security, speed, and reliability.
What you do: Audit performance bottlenecks, apply security rules, and optimize execution speed.
Tools used: Autodesk Revit, Visualization Presentation, Materials shadows lighting
Project outcome: Production-grade technical deliverable ready to add to your personal portfolio.

Project 5: Autodesk Revit End-to-End Capstone

What it is: Build a complete, production-ready Autodesk Revit project bringing all skills together.
What you do: Design, code, test, and document a full project workflow from scratch to launch.
Tools used: Autodesk Revit, Collaboration Worksharing, Central model local
Project outcome: Verified capstone project ready to showcase on your resume and interview calls.

ASSESSMENT FRAMEWORK

Module tests, practical evaluations, capstone and completion criteria.

COMPONENT	ASSESSMENT FOCUS	PASS EVIDENCE
Module Knowledge Quizzes	Core BIM principles, industry terminology, and workflow concepts	Consistent passing score across syllabus unit evaluation tests
Lab Submissions & Practice Reviews	Hands-on Views Annotation implementation, configuration, and practical exercises	Working lab deliverables satisfying practical evaluation rubrics
Hands-On Mini Projects	Independent problem-solving using intermediate Schedules Quantities techniques	Functional project artifacts addressing realistic domain scenarios
Final Production Capstone	End-to-end Autodesk Revit implementation, quality review, and delivery	Complete capstone submission with technical walkthrough review
Technical Mock Viva	Technical reasoning, troubleshooting approaches, and communication	Successfully defending project decisions in structured mock panels

RESUME, GITHUB & LINKEDIN

Evidence-based resume writing and professional project presentation.

- Organized Autodesk Revit portfolio of 2D drafting sheets, 3D models, and plot sets.
- Detailed BIM diagrams, component specifications, and end-to-end workflows.
- Visual project sheets, live demonstration walkthroughs, and verified functional outputs.
- Project documentation covering Views Annotation setup, configuration steps, and test notes.
- Direct resume bullet points highlighting hands-on Autodesk Revit tools and technical outcomes.
- Structured practice for technical interview pitches, walkthroughs, and viva defense.
